**Open to the first 50
people to email or call**

Taking WorkKeys tests is an important first step to prepare for education, training, or career. WorkKeys scores help you compare your skills to the skills real jobs require

Your WorkKeys scores prove you have the skills to succeed. Taking the WorkKeys assessments allows you to:

- Identify what skills you already have
- Match your skills to specific job requirements
- Prove you have the skills needed to be successful in the workplace

Add your National Career Readiness Certificate and WorkKeys scores to your resume and job applications. Take your WorkKeys score report or National Career Readiness Certificate to a job interview to show the employer that you have the skills needed for the job. If you are planning to attend a community or technical college, include your WorkKeys scores in your application materials. Many institutions use and know about WorkKeys assessments.
